

Custom Queryを使って自分のGeckを管理する

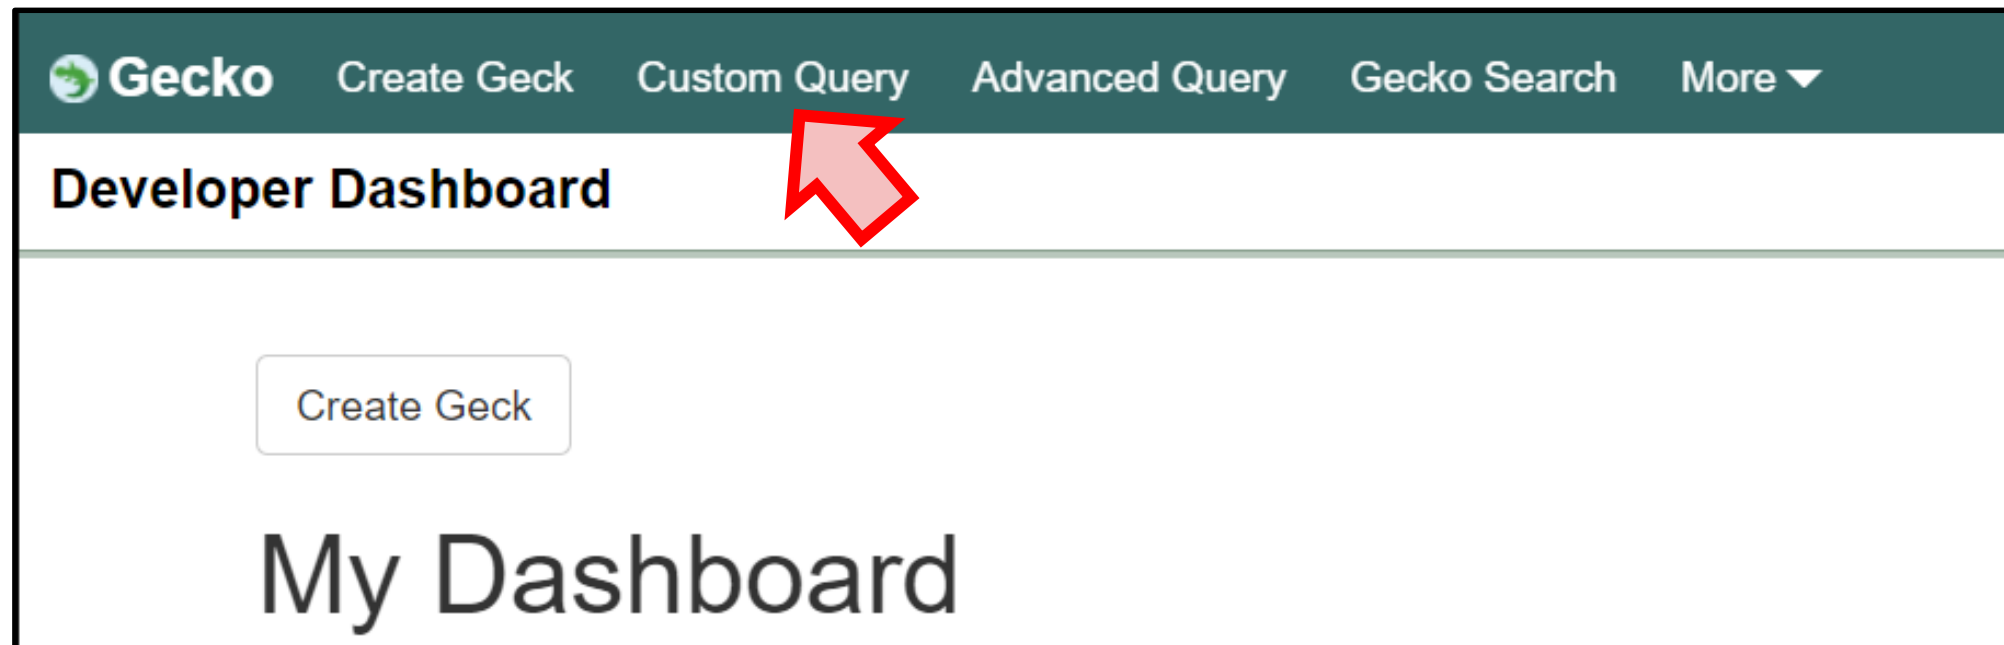

MathWorks Consulting Service

2020/02/10

東崎

手順1

- ダッシュボードのページから “Custom Query” をクリック

手順2

The screenshot shows the 'Gecko' application interface with a 'Custom Record List' window. The window has a dark green header with navigation links: 'Gecko', 'Create Geck', 'Custom Query', 'Advanced Query', 'Gecko Search', and 'More'. Below the header, the title 'Custom Record List' is displayed. The main content area has a tabbed interface with tabs: 'Main', 'Modifiers/Dates', 'Component', 'Organizational', and 'LCM'. The 'Modifiers/Dates' tab is selected. At the top of the main area, there is a 'Report:' dropdown set to 'Standard List', and buttons for 'List these records', 'Reset', and 'Cancel'. Below the tabs, there are input fields for 'CreatedBy' (stozaki), 'CodedBy' (Any), 'ClosedBy' (Any), 'VerifiedBy' (Any), and 'QualifiedBy' (Any). A note states: 'All dates must be of the format "mm/dd/yyyy"'. Below this, there are checkboxes for 'Created', 'Qualified', 'Verified', 'Modified', and 'Last Modified'. To the right of these checkboxes, there are date range selectors with 'From' and 'To' fields. The 'Created' checkbox is checked, and its corresponding date range is 'From: 01/01/2020' to 'To: 12/31/2020'. Other date ranges are shown for 'Qualified', 'Verified', 'Modified', and 'Last Modified'. Five red callouts with arrows point to specific elements: 1. 'Modifier/Datesタブを選択' points to the 'Modifiers/Dates' tab. 2. '自分のUNIX IDを設定' points to the 'CreatedBy' field. 3. '表示したいカテゴリを選択' points to the 'Created' checkbox. 4. '期間を選択 (その年の1/1から12/31の設定可)' points to the date range selectors. 5. 'List these recordsをクリック' points to the 'List these records' button. A black callout at the bottom right says '必要に応じて他のタブで設定を行います'.

The screenshot shows a web interface for configuring a custom query. It includes a 'Name' field, a 'Query' text area, a 'Test Query' button, a 'Comments' field, and 'Save' and 'Cancel' buttons at the bottom. Red arrows and boxes highlight specific steps: Step 1 points to the 'Name' field; Step 2 points to the 'Query' text area; Step 3 points to the 'Test Query' button; and Step 4 points to the 'Save' button. A yellow arrow points to the 'Publish' button with a warning box.

1. Custom Queryの名称を設定

Name:

2. ここはそのまま

Query:

CreatedOn BETWEEN '2020-01-01' AND '2020-12-31' AND CreatedBy = 'stozaki'

Comments:

Save Cancel

**3. Test Queryで意図通り
表示されるか？をチェック**

4. 3で問題なければSaveをクリック

手順5

1. MoreからNamed Queries & Reportsをクリック

2. 先頭に[Private]として登録したQueryが表示

The screenshot shows the Gecko web interface. The top navigation bar includes links for 'Create Geck', 'Custom Query', 'Advanced Query', 'Gecko Search', and 'More'. The 'More' menu is open, showing options like 'Named Queries & Reports', 'Dashboard', 'Classic Home', 'Component Owners', and 'LCM'. The 'Named Queries & Reports' page is displayed, with tabs for 'Named Queries' and 'Reports'. A filter box is present with a 'Clear' button. The list of queries starts with '[Private] 2020 my geck', followed by '10a CDA: ALL RFAIN Features', '10b SP2 Nominations', '11b All: Release deliverables shipped', '11b Audit report', '12a CDA: ALL', '12a CDA: CAT-1 eLCM Release Goal gecks', '12a CDA: Coder Target Connectivity', and '12a CDA: Physical Modeling Feature Deliverables'. A red arrow points to the first query in the list.
